- 2020-2021 Cleveland Foundation
Creating Better Access to Mental and Behavioral Health Services for Families
(Co-I, PI: Rainbow Center for Child Health and Policy)
Role included: lead of women's mental health clinic grant activities and clinical programming; oversight of all grant activities in collaboration with the Rainbow Center for Child Health and Policy.
\$1,000,000
- 2019-2021 Mt. Sinai Health Care Foundation
ACEs Screening and Child-Parent Psychotherapy Expansion Project (Co-Investigator/University Hospitals Lead, PI: H. Ritzenthaler/OhioGuidestone Lead)
Role included: Lead for UH in partnership with OhioGuidestone to assess, plan, and implement trauma informed care at the UH Rainbow Center for Women and Children. Collaborate on all aspects of project including planning for clinical activities, training of staff and providers, and UH lead on empirical evaluation of new programming and other primary research questions related to trauma exposure and family health and well-being. Work continuing through philanthropic support for clinical oversight/implementation.
\$39,000 Sub-award from OhioGuidestone
- 2017-2019 Ohio Children's Trust Fund (OCTF)
Mom Power CLE (Child Team Clinician Leader; PI: Sarah Nagle-Yang, M.D.)
Role included: serving as a clinician and trainer for the intervention's Child Team component, as well as contributing to the design and implementation of the open trial evaluation of the intervention's effectiveness (i.e., pre- and post-assessments for intervention participants) in reducing maternal mental health symptoms and

burden and improving parent-child attachment security by promoting positive changes in parenting knowledge and parenting behavior
\$120,000 year 1, \$120,000 year 2

- 2016-2018 International Psychoanalytical Association
Stability and Change in Defense Mechanisms from Pregnancy to 2-years Post-Pregnancy (Co-Investigator, PI: J. Porcerelli, Ph.D.)
Role included: conceptualization of research questions, analysis of longitudinal database, and write-up; data come from my longitudinal dataset and Dr. Porcerelli has received permission to use my dataset to code interviews for this study.
No paid effort.
- 2015-2018 Flinn Foundation, Gerstacker Foundation, Michigan Health Endowment Fund, and Michigan Medicaid Match Program
Michigan Infant Mental Health Home Visiting Evaluation (Consultant and Research Advisory Board member, PIs: K. Rosenblum, Ph.D. and M. Muzik, MSc, M.D.)
Role as a core faculty member on the Advisory Board included: conceptualization of the study, development of study design and choice of key assessment tools, development of methods to retain participants in study, strategizing about sustained research support, and liaison to clinical work force participating in the study, data analysis, and write-up of findings.
No paid effort.
- 2015-2016 Eastern Michigan University, Deans Research Award and Women in Philanthropy Award
Pediatrac Project (Consultant, PI: R. Lajiness-O’Neill, Ph.D.)
Role included: consulting with the team as an infant mental health expert and developmental scientist to help conceptualize and choose critical markers of typical and atypical development to be included in tools & Pediatrac software, grant writing (see above for funded R01), consulting on data analysis and write-up.
No paid effort.
- 2014-2016 Gerber Foundation
Attachment and Feeding Study (Consultant, PI: A. Drayton, Ph.D.)
Role included: consulting with PI about how to evaluate parent-child attachment and parenting quality among families in her intervention study; trained research assistants to conduct standardized laboratory paradigms for attachment and parenting; coded all parent-child attachment assessments (Strange Situation Procedure)
\$19,994
- 2011-2013 International Psychoanalytic Association.
Disrupted Maternal Representations: Prenatal to Postnatal Stability in Relation to Maternal Interpersonal Trauma (Co-Investigator, PI: S. Ahlfs-Dunn, Ph.D.)

Role included: mentoring this student to write and successfully obtain this award to support her dissertation study, oversaw coding by PI, and data analysis.
No paid effort.

- 2008-2012 NIH/NIMH (K23MH080147)
Maternal Anxiety during the Child Bearing Years (MACY) (Consultant, PI: M. Muzik, MSc, M.D.)
Role included: consulting with PI about how to evaluate parent-child attachment and parenting quality among families in her study; trained research assistants to conduct standardized laboratory paradigms for attachment; coded all parent-child attachment assessments (Strange Situation Procedure).
No paid effort.

RESEARCH PROJECTS

Active:

- 2015-present *Michigan Infant Mental Health Home Visiting Evaluation*
Michigan Collaborative for Infant Mental Health Research
Activities: Research collaborator and member of research advisory board to team charged with evaluating the state of Michigan's infant mental health home visiting model to promote the model as an evidence-based practice according to state and federal home visiting standards.
Principal Investigators: Kate Rosenblum, PhD, Maria Muzik, MD, MSc
- 2013-present *Pediatrac Project: An Empirically-Based Infant-Toddler Assessment Tool to Track Early Developmental Trajectories*
Eastern Michigan University, Ypsilanti, Michigan
University of Michigan, Ann Arbor, Michigan
University Hospitals Cleveland Medical Center, Cleveland, OH
Activities: Consultant to project development team for early social-emotional and relational health development assessment. Co-PI on funded RO1 grant from NICHD to validate the tool in a multi-site longitudinal study.
Principal Investigator/Project Director: Renee Lajiness-O'Neill, PhD

Completed:

- 2020-2023 *Adverse Childhood Experiences (ACEs) and Obstetrical and Pediatric Outcomes*
University Hospitals Cleveland Medical Center, Department of Pediatrics
Activities: Co-Investigator of research team examining associations between women's and young children's exposure to ACEs and other forms of family adversities and mental and physical health outcomes. Team includes both OB/Gyn and Pediatric residents, as well as medical and public health students.
- 2019-2022 *The Anti-Fragility Initiative*
University Hospitals Cleveland Medical Center, Department of Pediatrics
Activities: Co-Investigator and UH Evaluation Lead to help develop a novel hospital-based violence intervention program through the Emergency Department

(Level 1 Trauma Center). Assisting with training team in trauma-informed care principles, helping to develop clinical intervention based on past evidence-based programs across the US, and collaborating with investigators at Case Western Reserve University to develop several evaluation projects.

Principal Investigator: Edward Barksdale, MD

- 2016-2022 *Mom Power*[®]: *Testing the Effectiveness of a Group Psychotherapy Intervention for Trauma-Exposed Mothers and their Young Children*
University Hospitals Cleveland Medical Center, Department of Psychiatry
Activities: Co-Investigator for a research team evaluating the effectiveness of the Mom Power[®] group intervention model for mothers and their infants and toddlers through an open trial design. Duties include developing research protocols and procedures, assisting with IRB documents, training research assistants and staff, mentoring student projects, maintaining databases, grant writing, data analysis, and publication/presentation preparation.
Principal Investigator: Jaina Amin, MD
- 2015-2022 *Cognitive-Affective Substrates of Smoking: Targets for Maternal Behavior Change*
Northwestern University Feinberg School of Medicine, Chicago, IL
Activities: Consultant to project team regarding mothers' empathic processes and parental reflective functioning, i.e., the capacity to accurately understand a child's mental states, as they relate to prenatal smoking behavior. Coder of reflective functioning on mothers' speech samples. Collaborator on data analysis and interpretation.
Principal Investigator: Suena Massey, MD
- 2013-2017 *Better Outcomes in Neurodevelopment (BabyBOND)*
DePaul University, Chicago, Illinois
Activities: Consultant and coder for the Strange Situation Procedure for this longitudinal study investigating biological and psychosocial mechanisms in understanding the association between exposure to violence and infant development.
Principal Investigator: Cecilia Martinez-Torteya, PhD
- 2013-2017 *Brain Imaging of Mothers (BIOM)*
Eastern Michigan University and Stony Brook University School of Medicine
Activities: Principal Investigator on a collaborative research project with co-Principal Investigator, James Swain, MD, PhD, examining brain-behavior associations between maternal mental health and parenting constructs using brain imaging with fMRI.
- 2014-2016 *Feeding and Attachment Study*
University of Michigan, Department of Pediatrics, Ann Arbor, Michigan

Role: Consultant and coder for the Strange Situation Procedure for intervention study evaluating associations between intensive behavioral feeding interventions and the parent-child relationship.

Principal Investigator: Amy Drayton, PhD

- 2007-2016 *The Parenting Project*
Eastern Michigan University, Ypsilanti, Michigan
Activities: Principal investigator of prospective study examining individual and contextual factors related to maternal and infant well-being across the transition to motherhood among low-income, pregnant women.
- 2007-2014 *Maternal Anxiety during the Childbearing Years (MACY-II)*
University of Michigan Health System, Ann Arbor, Michigan
Activities: Co-investigator on longitudinal study assessing trauma and anxiety in mothers and infants. Led the administration and coding of major study outcome (mother-infant attachment). Collaborated on data analysis and publications.
Principal Investigator: Maria Muzik, MD, MSc
- 2003-2007 *Perinatal Infant Mother Attachment & Cortisol Study (PIMACS)*
University of Michigan Health System, Ann Arbor, Michigan
Role: Coder for the Strange Situation Procedure for assessment of parent-infant attachment.
Principal Investigators: Delia Vazquez, MD and Brenda Volling, PhD
- 2002-2003 *Youth-Nominated Support Team Intervention for Depressed Youth*
University of Michigan Health System, Ann Arbor, Michigan
Role: Post-doctoral research fellow involved in recruiting adolescent patients, conducting clinical diagnostic interviews, data analysis, and manuscript preparation.
Principal Investigator: Cheryl King, PhD
- 1998-2002 *Mother-Infant Study*
Michigan State University, East Lansing, Michigan
Role: Graduate doctoral fellow and project manager for longitudinal study. Oversaw all aspects of the project, along with training and supervising research assistants throughout duration of project.
Principal Investigators: Alytia Levendosky, PhD and G. Anne Bogat, PhD
- 2000-2002 *Family Stories Project*
University of Michigan, Ann Arbor, Michigan
Role: Graduate research assistant involved in collecting data and coding preschoolers' attachment story completions.
Principal Investigators: Kris Freeark, PhD and Kate Rosenblum, PhD
- 1997-1998 *Effects of Domestic Violence on Preschooler Functioning*
Michigan State University, East Lansing, Michigan

Role: Graduate doctoral fellow involved in data collection, conducting home visits, recruitment, participant tracking, administration of preschoolers' language assessments, data analysis, and manuscript preparation.

Principal Investigator: Alytia Levendosky, PhD

- 1996-1997 *Domestic Violence and Adolescent Relationships*
Michigan State University, East Lansing, Michigan
Role: Graduate doctoral fellow involved in participant data collection, analysis, and manuscript preparation.
Principal Investigator: Alytia Levendosky, PhD
- 1997 *Evaluation of Treatments for Heroin Addiction*
Wayne State University, Detroit, Michigan
Role: Graduate-level research assistant.
Principal Investigator: Karen Saules (Downey), PhD
- 1994-1996 *Psychiatric Functioning in Inpatients with Personality Disorders*
University of Michigan, Ann Arbor, Michigan
Role: Post-baccalaureate, full-time, paid research assistant in inpatient psychiatric unit.
Principal Investigators: Kenneth Silk, MD and Naomi Lohr, PhD
- 1994 *Open and Closed Adoptions Study: Effects on Young Adoptees*
University of Michigan, Ann Arbor, Michigan
Role: Undergraduate research assistant.
Principal Investigators: Ruth Drasin, PhD and Neil Kalter, PhD
