

WAYNE STATE UNIVERSITY

Professional Record

Ratna Babu Chinnam, Ph.D.

Office: 4815 Fourth Street, Detroit, MI 48202 Home: 1352 Ross Lane, Rochester, MI 48306
Tel (O): 313-577-4846 (H): 248-652-3240 (C): 248-819-2874
E-mail: ratna.chinnam@wayne.edu

DEPARTMENT/COLLEGE: Industrial & Systems Engineering Department, College of Engineering

PRESENT RANK & DATE OF RANK: Professor, Fall 2012

WSU APPOINTMENT HISTORY:

Year Appointed/Rank: Fall 2000, Associate Professor
Year Awarded Tenure: 2006
Year Promoted to Full Professor: 2012

CITIZEN OF: United States of America

EDUCATION:

Baccalaureate: B.S. Mechanical Engineering, Manipal Institute of Technology, Mangalore University, India, 1988.
Graduate: M.S. Industrial Engineering, Texas Tech University, Lubbock, Texas, 1990.
Ph.D. Industrial Engineering, Texas Tech University, Lubbock, Texas, 1994.

FACULTY APPOINTMENTS AT OTHER INSTITUTIONS:

Fall 1994 to Winter 2000, Assistant Professor, Industrial & Manufacturing Engineering Department, North Dakota State University.
Summer 2000, Associate Professor, Industrial & Manufacturing Engineering Department, North Dakota State University.
Fall 2009 – Present, Research Professor, John D. Dingell VA Medical Center, Detroit.

PROFESSIONAL SOCIETY MEMBERSHIP(S):

Member, Institute for Operations Research & Management Science
Member, North American Manufacturing Research Institute
Member, Alpha Phi Mu

HONORS/AWARDS:

Best Applications Paper - Honorable Mention, *IIE Transactions* Focused Issue on Scheduling and Logistics Best Paper Award Competition, 2017.

Signature: 

June 30, 2017

Movahednejad, M., Mashayekhy, L., Chinnam, R.B, and Phillips, A., “Hierarchical Time-Dependent Shortest Path Algorithms for Vehicle Routing under ITS,” *IIE Transactions*. Vol. 48, Issue 2, pp. 158-169, 2016.

Awards are selected by an examining committee from all papers published from July 1, 2015 through June 30, 2016. Invited to present paper as part of a special session for IIE Transactions Best Papers at the 2017 ISERC Conference.

PhD Advisor for IIE Pritsker Doctoral Dissertation Awardee, 2016.

Mahyar Movahednejad was awarded the IIE Pritsker Doctoral Dissertation Award for 2016. It recognizes individuals in academia who have shown outstanding research capabilities in industrial engineering along with a \$1,000 cash prize from the Pritsker Corp. Candidate is also invited to present a paper on the dissertation at the Industrial Engineering Research Conference: Mahyar Movahednejad, *Frontiers in Operations Research for Overcoming Barriers to Vehicle Electrification*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2015.

Founding Co-Director, Interdisciplinary M.S. Program in Data Science & Business Analytics, Wayne State University, 2016.

Approved by the WSU BoG in Fall 2016, this is a novel interdisciplinary degree program that leverages the strengths of Wayne State in statistics, operations research, computing, and business by combining the expertise of the College of Engineering and the Mike Ilitch School of Business. It offers students three specialization tracks in Analytics, Engineering, and Business. See the Program Website (<https://bigdata.wayne.edu/degree>) for more information.

IIE Transactions Article profiled in IIE Magazine, 2016.

The following IIE Transactions Article is profiled in IIE Magazine, Vol 48, January 2016: Movahednejad, M., Mashayekhy, L., Chinnam, R.B, and Phillips, A., “Hierarchical Time-Dependent Shortest Path Algorithms for Vehicle Routing under ITS,” *IIE Transactions*. Vol. 48, Issue 2, pp. 158-169, 2016.

PhD Advisor for IBM Service Science Best Student Paper Awardee (Finalist), 2015.

Mahyar Movahednejad is one of the few finalists among the 55 submissions for the IBM Service Science Best Student Paper Award for the following article based on his dissertation research (presentation at INFORMS 2015):

Movahednejad, M., Mashayekhy, L., Chinnam, R.B., and Grosu, D. “Scheduling and Pricing Services for Online Electric Vehicle Charging”.

PhD Advisor for INFORMS ENRE Best Student Paper Awardee, 2014.

Mahyar Movahednejad was awarded the 2014 Institute for Operations Research & Management Science Society (INFORMS) Section on Energy, Natural Resources, and the Environment (ENRE) Best Student Paper Award for the following article based on his dissertation research: Movahednejad, M., Mashayekhy, L., Grosu, D., and Chinnam, R.B, “Optimal Routing for Plug-in Hybrid Electric Vehicles”.

PhD Advisor for Runner-Up Prize Awardee, POMS College of Sustainable Operations Student Paper Competition, 2014.

Mahyar Movahednejad was awarded the Production and Operations Management Society (POMS) College of Sustainable Operations 2014 Student Paper Competition award and prize for the following article based on his dissertation research:

Movahednejad, M., Mashayekhy, L., Grosu, D., and Chinnam, R.B, “Optimal Routing for Plug-in Hybrid Electric Vehicles”.

Outstanding Faculty Leadership Award, Industrial & Systems Engineering Department, Wayne State University, 2013.

“In appreciation for outstanding commitment to research, teaching, mentoring and advising graduate students and continued service to the Industrial & Systems Engineering Department at Wayne State University.”

- PhD Advisor for INFORMS Best Dissertation Prize Awardee - Aviation Applications Section, 2013.
Farshid Azadian, 2012 PhD alumnus of Wayne State University, co-advised by me and Dr. Alper Murat, won the Institute for Operations Research & Management Science Society (INFORMS) Best Dissertation Prize in the Aviation Applications Section of the INFORMS Transportation Science and Logistics Society. This is the first such award from INFORMS, our premier society, to WSU.
- Best Paper Award, Society of Operations Management, 2012.
Kumar, A., Chinnam, R.B., "Strategic Capacity Planning and Management of Remanufactured Products," *16th Annual International Conference of the Society of Operations Management (SOM 2012)*, IIT Delhi, India, December 21-23, 2012.
- Gold Paper Award, ITS Michigan Annual Meeting, Intelligent Transportation Society, 2012.
Movahednejad, M. and Chinnam, R.B., "Efficient Routing on Large-Scale Dynamic Networks under ITS Using Hierarchical Communities," *ITS Michigan Annual Meeting & Exposition*, Dearborn, MI, May 30, 2012.
- Outstanding Faculty Service Award, Engineering Student Faculty Board, Wayne State University, 2012.
- Outstanding Graduate Mentor Award in the Natural Sciences/Engineering, Wayne State University, 2012.
Outstanding Graduate Mentor Awards honor Graduate Faculty recognized by their departments and their graduate students as excellent graduate mentors. Up to four awards are granted annually. Each award includes a \$2,500 honorarium and a citation presented at the Faculty Recognition Ceremony.
- Gold Paper Award, ITS Michigan Annual Meeting, Intelligent Transportation Society, 2011.
Movahednejad, M. and Chinnam, R.B., "State-Space Reduction in Modeling Traffic Network Dynamics for Efficient Graph-Based Hierarchical Routing Algorithms under ITS," *ITS Michigan Annual Meeting & Exposition*, Dearborn, MI, June 1, 2011.
- Bronze Paper Award, ITS Michigan Annual Meeting, Intelligent Transportation Society, 2011.
Guner, A., Chinnam, R.B., and Murat, A.E., "Dynamic Routing Policies in Stochastic Time-Dependent Networks Under ITS," *ITS Michigan Annual Meeting & Exposition*, Dearborn, MI, June 1, 2011.
- Best Data Mining Paper Award - Finalist, INFORMS Annual Meeting, 2010.
Kumar, A., Chinnam, R.B., Guo, Y., and Tseng, F., "Hidden-Markov Model based Sequential Clustering for Autonomous Diagnostics," *INFORMS Annual Meeting*, Austin, TX, November 7-10, 2010.
- Bronze Paper Award, ITS Michigan Annual Meeting, Intelligent Transportation Society, 2010.
Guner, A., Chinnam, R.B., and Murat, A.E., "Dynamic Routing in Stochastic Time-Dependent Networks for Milk-Run Tours with Time Windows," *ITS Michigan Annual Meeting & Exposition*, Dearborn, MI, May 19- 20, 2010.
- Founding Director, Global Executive Track (GET), Ph.D. in Industrial Engineering, Wayne State University, 2008.
First such track in the United States. By 2016, over 50 students have been admitted into the program from such international companies/agencies as Apple, Ford, Chrysler, GM, General Dynamics, TRW, American Axle, QSS, Henry Ford Health Care, HUD, and VA. Both the curriculum and its delivery are novel. Faculty and experts from around the globe participate in the program. See the GET Program Website (<http://engineering.wayne.edu/ise/programs/phd-get.php>) for more information.
- Best Paper Award, American Society for Engineering Management, 2008.
Nepal, B., Chinnam, R.B., Petrycia, J., Brush, E., Chisholm, C., Hearn, M., and Meixner, M., "A quality-based business model for determining non-product investment: A case study from a Ford automotive engine plant," *Engineering Management Journal*, Vol. 19, No. 3, pp. 31-46, 2007.

Outstanding Faculty Service Award, Engineering Student Faculty Board, Wayne State University, 2005.

Outstanding Faculty Service Award, Engineering Student Faculty Board, Wayne State University, 2003.

Best Paper Award - Finalist, ANNIE Conference, St. Louis, Missouri, 2000. Paper was later invited and published in *International Journal of Smart Engineering System Design*. Chinnam, R.B. and Mohan, P., "On-Line Reliability Estimation of Physical Systems Using Neural Networks and Wavelets," *International Journal of Smart Engineering System Design*, Vol. 4, No. 4, pp. 253-264, 2002.

Preferred Professor, Mortar Board Honor Society, North Dakota State University, 1999.

Researcher of the Year Award - Runner Up, College of Engineering and Architecture, North Dakota State University, 1999.

Best Novel Engineering Application Paper - Finalist, ANNIE Conference, St. Louis, Missouri, 1997. Paper was later invited and published in *International Journal of Smart Engineering System Design*.

Chinnam, R. B. and May, G.S., "Role of Neural Networks and Genetic Algorithms in Developing Intelligent Quality Controllers for On-line Parameter Design," *International Journal of Smart Engineering System Design*, Vol. 3, pp. 51-64, 2001.

Nominee, Most Outstanding Graduating Doctoral Student, Texas Tech University, 1994.

Merit Scholarship, Texas Tech University, 1989-1990.

Outstanding Academic Performance Award, Manipal Institute of Technology, 1988.

General Proficiency Award, Manipal Institute of Technology, 1985, 1986, and 1987.

Sri Sudhakara Reddy Memorial Award for Best Mechanical Engineering Student of the Year, Manipal Institute of Technology, 1986.

BIOGRAPHICAL CITATIONS (National/Regional or Professional Directories):

Listed in Marquis *Who's Who in the World*, 2004.

Listed in AcademicKey's *Who's Who in Engineering Education*, 2002.

Listed in Marquis *Who's Who in Science and Engineering*, 1997.

I. TEACHING

A. Years at Wayne State

Fall 2000 to Present

B. Years at Other Colleges/Universities

Fall 1994 to Summer 2000, Industrial & Manufacturing Engineering Department, North Dakota State University

C. Courses Taught at Wayne State

D. Essays/Theses/Dissertations Directed

Ph.D. Graduates – As Major Advisor

1. Fatih Camci, *Process Monitoring, Diagnostics & Prognostics Using SVMs and HMMs*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2005. [Department Chair, Antalya International University, Turkey; Previously with Cranfield University, UK and Fatih University, Turkey]
2. Mahmoud El-Banna, *Dynamic Resistance based Intelligent Resistance Welding*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2006 (Co-Advised by Dr. Filev). [Faculty Member, German Jordanian University, Jordan]
3. Ramakrishna Govindu, *Multi-Agent Systems for Supply Chain Modeling: Methodological Frameworks*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2006. [Faculty Member, University of South Florida – Sarasota-Manatee, USA]
4. Pundarikaksha Baruah, *Supply Chains Facing Atypical Demand: Optimal Operational Policies and Benefits Under Information Sharing*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2006. [Manager, Avaya]
5. Gangaraju Vanteddu, *Strategic Supply Chain Modeling: A Supply Chain Perspective of Cost Efficiency and Responsiveness*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2008. (Co-Advised by Dr. Yang). [Faculty Member, Southeast Missouri State University, USA]
6. Ibrahim Dogan, *Modeling & Control of Closed-loop Remanufacturing Supply Chains under Non-stationary Demand*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2008. [Department Chair, Erciyes University, Turkey]
7. Ali Guner, *Dynamic Routing on Stochastic Time-Dependent Networks Using Real-Time ITS Information*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2011. (Co-Advised by Dr. Murat). [Faculty Member, Zirve University, Turkey]
8. Akhilesh Kumar, *An Integrated Decision Support Framework for Remanufacturing in the Automotive Industry*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2011. [Faculty Member at IIT Kharagpur, India; Previously Solution Architect, JDA Software Group, India]

** Teaching evaluation forms were not distributed in time by Wayne State University to administer in Fall 2003.

9. Dingzhou Cao, *Novel Models and Algorithms for Systems Reliability Modeling and Optimization*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2011. (Co-Advised by Dr. Murat). [Reliability Analyst, BP]
10. Chongwen Zhou, *Early Warranty Detection Using Upstream Supply Chain Information*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2011. [Manager, Faurecia]
11. Jehad Zughyer, *Trucking Industry: Spot-Market Dispatching Model*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2011. (Co-Advised by Dr. Murat). [Senior Engineer, GM]
12. Hatice Ucar, *Bottleneck Management and Throughput Optimization in Production Flow Lines*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2011. (Co-Advised by Dr. Murat). [Faculty Member, Zirve University, Turkey]
13. Arun Timalisina, *A Framework for Personalized Dynamic Cross-selling in e-Commerce*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2012. [Department Chair, Tribhuvan University, Nepal]
14. Ramesh Subramoniam, *Remanufacturing for the Aftermarket: Strategic Planning and Decision Making Framework*, Ph.D. Dissertation, International Off Campus Programme on Cleaner Production, Cleaner Products, Industrial Ecology and Sustainable Development, Erasmus University, Rotterdam, Netherlands, 2012. (Co-Advised by Dr. Donald Huisingsh). [Director, FTI Consulting]
15. Farshid Azadian, *An Integrated Framework for Freight Forwarders: Exploitation of Dynamic Information for Multimodal Transportation*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2012. (Co-Advised by Dr. Murat) [Faculty Member, Embry-Riddle Aeronautical University, Florida].
16. Ali Taghavi, *An Integrated Framework for Configurable Product Assortment Planning: Considerations for Supply, Demand, Manufacturing, and Distribution Issues*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2012 [Research Scientist, Llamasoft].
17. Erkan Isikli, *Marketing Analytics for Configurable Products: Managing External Variety*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2012 [Faculty Member, Istanbul Technical University, Turkey].
18. Darrell Williams, *Product Development Framework for Managing Complexity & Flexibility in Defense Industry Projects*, GET Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2013 [Director of Engineering, Terumo].
19. Rachel-Itabashi Campbell, *Engineering Problem Solving & Sustained Learning*, GET Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2013. [Functional Safety Engineer, Takata].
20. Edward L. Umpfenbach, *Strategic Planning of Configurable Products: Considerations for Global Supply, Demand, and Sustainability Issues*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2013 [DOD SMART Scholar; Analyst, GM].
21. Saman Alaniazar, *Capacity Planning for Innovative Products*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2013 [Technical Specialist, Ford Analytics].
22. Nancy Philippart, *Global e-Mentoring: Overcoming Virtual Distance for an Effective Partnership*, GET Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2014 [General Partner, BELLE Michigan – An early stage investment company].

23. Shanshan Qiu, *Near Real-time Management of Patient Flow in Health Care Systems*, Industrial & Systems Engineering Department, Ph.D. Dissertation, Wayne State University, 2014 [Analyst, Ford Credit].
24. Mahyar Movahednejad, *Frontiers in Operations Research for Overcoming Barriers to Vehicle Electrification*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2015 [Assistant Professor, University of Delaware].
25. Peter Chhim, *Knowledge Reuse through Electronic Knowledge Repositories: An Empirical Study and Ontological Improvement Effort for the Manufacturing Industry*, GET Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2015 [Corporate Warranty Manager, Tenneco].
26. Fling (Finn) Tseng, *Evolving Clustering Algorithms and their Application for Condition Monitoring, Diagnostics, and Prognostics*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2017. [Research Engineer, Ford]
27. Mark D. Dolsen, *Developing Innovation Capability in a Mass Production Organization*, GET Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2013-Present. [President, TRQSS]

Current Ph.D. Students (Candidates that completed Qualifiers) – As Major Advisor

1. Stephen Rapp, *Resilience Engineering with Regions in Set-Based Design*, Industrial & Systems Engineering Department, GET Ph.D. Dissertation, Wayne State University, 2014-Present. (Co-Advised by Dr. Witus).
2. Greg Hartman, *Enhanced Set-Based Design to Engineer Resilience for Long-Lived Systems*, GET Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2014-Present. (Co-Advised by Dr. Witus).
3. Rick Mueller, *Disruptive Innovation: Regaining Momentum by Overcoming the Barrier of Tautology*, GET Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2014-Present.
4. Kenneth Gembel, *A Structured Methodology for Tailoring and Deploying Lean Manufacturing Systems*, GET Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2012-Present.
5. Ying Tang, *Assortment Planning for Configurable Products*, Industrial & Systems Engineering Department, Ph.D. Dissertation, Wayne State University, 2013-Present.
6. Sina Faridimehr, *Managing Access to Care at Primary Care Facilities*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2013-Present.
7. Haidar Almohri, *Big Data Analytics for Automotive Dealership Performance Management*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2014-Present.
8. Seungyup Lee, *Proactive Resource and Task Allocation for Coordination in Service Networks*, Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2014-Present.
9. Rita D'Angelo, *Laboratory Developed Tests: Designing an Agile Quality Management System*, GET Ph.D. Dissertation, Industrial & Systems Engineering Department, Wayne State University, 2014-Present.

Current Ph.D. Students (Early Stages) – As Major Advisor

1. Samira Fazel Anvaryazdi, *Stochastic Programming for Outpatient Scheduling*, Industrial & Systems Engineering Department, Wayne State University, 2014-Present.
2. Esam Qattan, *Leveraging Ontologies for Discrete Event Simulation*, Industrial & Systems Engineering Department, Wayne State University, 2014-Present.
3. Elham Nosratmirshekarlou, *Unifying Constraint and Bayesian Networks*, Industrial & Systems Engineering Department, Wayne State University, 2014-Present.

4. Najibesadat Sadatijafarkalaei, *Big Data Analytics for Process Parameter Design*, Industrial & Systems Engineering Department, Wayne State University, 2015-Present.
5. Elham Taghizadeh, *Big Data Analytics for Supply Chain Management*, Industrial & Systems Engineering Department, Wayne State University, 2016-Present.
6. Faria Manaj, *Healthcare Analytics*, Industrial & Systems Engineering Department, Wayne State University, 2016-Present.

M.S. Theses Advised

1. Vinodh Rengasamy, *Performance Reliability Prediction in Physical Systems: A Comparison of Statistical Methods and Artificial Neural Networks*, (One of Two Major Advisors), Mechanical Engineering Department, North Dakota State University, 1998.
2. Joshi Makarandh, *Utilization of Machining Forces and Elimination of Machining Interference to Generate Modular Fixture Design for Prismatic Work Pieces*, Industrial & Manufacturing Engineering Department, North Dakota State University, 1997.
3. Jie Ding, *Intelligent Quality Controllers for Manufacturing Processes*, Industrial & Manufacturing Engineering Department, North Dakota State University, 1999.
4. Pankaj Mohan, *On-Line Reliability Estimation of Physical Components through Degradation Signal Modeling: A Study of Time- and Mixed- Domain Analysis Methods*, Industrial & Manufacturing Engineering Department, North Dakota State University, 2000.

12. Sheida Marashi. *Graphical Models for Disease Diagnosis using Triage Data*, Industrial & Systems Engineering Department, Wayne State University, 2016-present.
13. Vivek Soni. *Big Data Topic to be identified*, Industrial & Systems Engineering Department, Wayne State University, 2017-present.

Ph.D. Students – As Advisory Committee Member

1. Shaun Lynch, College of Engineering and Architecture, North Dakota State University, Advisory Committee Member, 1998.
2. Jim Casler, College of Engineering and Architecture, North Dakota State University, Advisory Committee Member, 1999.
3. Gary Witus, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2002.
4. Loah Salhieh, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2002.

5. Naveen Gautam, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2005.
6. Panayiotis Zaphiris, Gerontology Institute and Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2002.
7. O.P. Yadav, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2002.
8. Kirk Cornell, Anthropology Department, Wayne State University, Advisory Committee Member, 2005.
9. B.K. Rai, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2004.
10. Jim McNicol, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2007.
11. Reynaldo Pablo, Civil & Environmental Engineering Department, Wayne State University, Advisory Committee Member, 2004.
12. Hisham Younis, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2003.
13. Lisa Eshback, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2004.
14. Bimal Nepal, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2005.
15. Mahmoud Awad, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2005.
16. Y. Burak Canbolat, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2005.
17. Faysal Khalaf, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2005.
18. Tarik Najib, Civil & Environmental Engineering Department, Wayne State University, Advisory Committee Member, 2005.
19. Abdallah Abdallah, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2007.
20. Femi Famuyiwa, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2007.
21. Dinesh Devaraj, Civil & Environmental Engineering Department, Wayne State University, Advisory Committee Member, 2010.
22. Mostafa Ali, Computer Science Department, Wayne State University, Advisory Committee Member, 2008.
23. Nazmul (Shahin) Hassan, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2011.
24. Abel Sahlool, Civil & Environmental Engineering Department, Wayne State University, Advisory Committee Member, 2011.
25. Samaranthunga Dassanayaka, Mathematics Department, Wayne State University, Advisory Committee Member, 2010.
26. Dapeng Liu, Computer Science Department, Wayne State University, Advisory Committee Member, 2011.
27. Mohsen Farag Isa, Civil & Environmental Engineering Department, Wayne State University, Advisory Committee Member, 2013.
28. Luke Reisner, Electrical and Computer Engineering Department, Wayne State University, Advisory Committee Member, 2014.
29. Yousof Ahmad Radwan Gawasmeh, Computer Science Department, Wayne State University, Advisory Committee Member, 2015.

30. Lena Mashayekhy, Computer Science Department, Wayne State University, Advisory Committee Member, 2015.
31. Mahtab Fard, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2016.
32. Amir Sanayei, Industrial & Systems Engineering Department, Wayne State University, Advisory Committee Member, 2016.
33. Nidhi Jain, Department of Operational Research, University of Delhi, Advisory Committee Member, 2011-Present.
34. Alireza Atin, Department of Civil Engineering, Wayne State University, Advisory Committee Member, 2016.
35. Haotian Xu, Computer Science Department, Wayne State University, Advisory Committee Member, 2015-Present.
36. Faisal Waris, Computer Science Department, Wayne State University, Advisory Committee Member, 2015-Present.

M.S. Theses – As Advisory Committee Member

1. Jin Zhu, Industrial & Manufacturing Engineering Department, North Dakota State University, Advisory Committee Member, 1999.
2. Liu Jian, Industrial & Manufacturing Engineering Department, North Dakota State University, Advisory Committee Member, 1999.
3. Sudhakar Uppu, Industrial & Manufacturing Engineering Department, North Dakota State University, Advisory Committee Member, 2000.
4. Pranav Radhakrishnan, Industrial & Systems Engineering Department, Wayne State University, 2011.
5. Farah Dubaisi, Industrial & Systems Engineering Department, Wayne State University, 2015.
6. Azad Sadr Haghighi, Industrial & Systems Engineering Department, Wayne State University, 2015.
7. Tannaz Khaleghi, Industrial & Systems Engineering Department, Wayne State University, 2015.

E. Curriculum Development

Wayne State University (Fall 2000 – Present)

Global Executive Track PhD Program Development

Founding Director for the Global Executive Track PhD Program in Industrial Engineering. *This is the first such engineering program in the United States.* This novel program was launched in 2008 and to date has admitted over 25 doctoral students. The GET PhD Track has very little in common with traditional PhD programs. Both the curriculum and its delivery are quite novel. Faculty and experts from around the globe participate in the program. This is one of my most significant achievements. Several universities are now reviewing the program for copying it. See the GET Program Website (<http://ise.wayne.edu/get/index.php>) for more information.

Big Data & Business Analytics MS Program Development

Leading the development of a brand new MS program in collaboration with Computer Science Department and the School of Business. It will be a novel program with three tracks in Analytics, Engineering, and Business. Plan is to launch the program in Fall 2017.

Restructuring of MS Programs

Chaired the committee for restructuring the M.S. Programs (along with Dr. Olugbenga Mejabi) all through 2002 and Winter 2003. New and novel concentration tracks were established in the areas of *Lean Operations Management*, *Quality Management*, and *Integrated Product Engineering*. The process also led to the development of over 12 new courses.

Currently chairing the Ph.D. Program Committee that is looking to revamp the program and core-coursework.

North Dakota State University (Fall 1994 – Winter 2000)

Chaired the committee for restructuring the M.S. Program. New tracks were researched and proposed in the areas of *Manufacturing Systems*, *Operations Management*, and *Information Technology*.

Being a faculty member that was more close to manufacturing than most other faculty in the department, I was quite responsible for the development of the original curriculum for the B.S. Manufacturing Engineering program proposed through a merger with the Aero Manufacturing Engineering Technology Department.

F. Course Materials (Unpublished)

Wayne State University (Fall 2000 – Present)

Developed new material for the following new non-traditional courses:

Launch through Sustainability: Products & Services – Parts I & II (IE8943, IE8944).

Teach the courses every other year.

Intelligent Engineering Systems (IE7860). Taught the course several times (2000-2012).

Intelligent Analytics (IE7860). Revised the course to increase emphasis on analytics. (2014 – Present)

Agile Systems for the Manufacturing Enterprise (IE7410). Taught several different versions of the course in the EMMP Program (at Ford and Visteon). Course is offered every other year.

Digital Enterprises. Course is under development for the GET PhD Program at the recommendation of the Advisory Board.

Developed the following new courses:

Supply Chain Management (IE7325). Primarily developed for M.S. students; teach the course annually.

Advanced Supply Chain Management (IE7995). Developed for the Ph.D. program; taught the course in 2005 and 2009.

North Dakota State University (Fall 1994 – Winter 2000)

Developed new material for the following courses:

Advanced Quality and Reliability Engineering (IE761). Taught the course several times.

Neural Networks (IE764 and CS 735). Developed a combined course for the Colleges of Engineering and Computer Science; taught the course several times.

II. RESEARCH

A. Research in Progress: Several Proposals in Progress/Pending.

B. Funded Research

Federal Grants – NSF [▪]

- 1) *BD Hubs: MIDWEST: SEEDCorn: Sustainable Enabling Environment for Data Collaboration.* Senior Personnel and Spoke Lead for a project funded by NSF IIS Program for \$1,499,999 (NSF Award #:1550320), 10/01/2015-9/30/2018. (P.I. Edward Seidel, University of Illinois at Urbana-Champaign). [▪] Project aims to build a sustainable hub of Big Data activities across the region and nation that enables research communities to better tackle complex science, engineering, and societal challenges that support competitiveness of US industry, and that enable decision makers to make more informed decisions on topics ranging from public policy to economic development.
- 2) *Planning Grant: I/UCRC for Excellence in Logistics and Distribution.* Co-P.I. for a planning grant proposal to setup a CELDi (Center for Excellence in Logistics and Distribution) center site at WSU for \$12,999, 08/01/2013-07/31/2014 (NSF Award #:1338928) (P.I. Dr. Murat). [▪] WSU seeks to join the Center for Excellence In Logistics and Distribution (CELDi) that is currently comprised of the University of Arkansas (lead), the University of Missouri at Columbia, Virginia Tech, the University of California at Berkeley, Clemson University, Oklahoma State and Arizona State University. The intellectual merit of this effort is the innovative applied logistics research solutions for addressing emerging challenges in the automotive, healthcare and defense industries.
- 3) *Pan-American Advanced Studies Institute on Manufacturing Innovation through Sustainable Design.* P.I. (100% share) for a project funded by NSF PASI and DOE for \$99,990, 2013-2014 (NSF Award # 1242268). [▪] Project is in collaboration with Drs. Kramer and Esparragoza of Penn State University and Dr. Haapala of Oregon State University. Project aims to develop and offer a two-week workshop in Columbia to address the need for fundamental research and holistic training in manufacturing innovation through sustainable design by bringing together accomplished researchers and educators from the Americas to share their knowledge through lectures, seminars, and workshop-like discussions with the purpose of fostering multinational and multidisciplinary collaboration
- 4) *CI-TEAM Demonstration Project: Collaborative Research - A Sustainable Product Development Collaboratory.* Co-P.I. (25% share) for a project funded by NSF CI-TEAM for \$109,998, 09/01/2010-09/30/2012 (P.I. Dr. Kim) (NSF Award # 1041380). [▪] Project is in collaboration with Dr. Kramer of Penn State University and Dr. Haapala of Oregon State University. Project aims to develop a collaborative e-learning laboratory for sustainable design and manufacturing. The laboratory aims to convey sustainability principles in the context of product architectural design, manufacturing, assembly, and supply chain decisions across a spectrum of active learners (i.e., K-12, university, and practitioners).
- 5) *IGERT: Incentive-Centered Design for Information and Communication Systems (STIET).* Project funded by NSF: IGERT Program, \$3,000,000, 08/01/2007-07/31/2014 (NSF Award # 0654014). (Partnership between Univ. of Michigan and Wayne State University; Senior/Affiliated Personnel; \$720,076 for WSU with 6 faculty) (% share unknown). [▪] STIET addresses the extraordinary changes in communications and computing technology, and the uses and requirements people have for these technologies. SITET group designs cyberinfrastructure to support safe, meaningful, efficient, equitable, and productive interactions. Contact: Karen Woollams, (734) 615-7210.
- 6) *Statistical & Computational Intelligence Methods for Prognostics in Condition-Based-Maintenance Systems.* P.I. (85% share) for a project funded by NSF: CMMI -

[▪] Federal Funding Grant

Manufacturing Enterprise Systems for \$100,000, 2003-2006 (NSF Award # 0300132).[■] Project aims to develop autonomous diagnostics and prognostics algorithms using statistical and computational intelligence methods for monitoring a wide variety of industrial assets through rapidly configurable and adaptive software agents.

- 7) *Greenfield Coalition: Operations Management Curriculum Development*. P.I. (100% share) for a project funded by NSF for \$85,000, 2001-2004 (NSF Award # EEC-9630951).[■] Project led to development of novel on-line curriculum material with rich industrial case studies for teaching operations management courses.
- 8) *Sensing Instrumentation for Designing and Monitoring Next Generation Products and Processes*. P.I. (100% share) for a project funded by NSF's Experimental Program for Stimulation of Competitive Research (EPSCoR) for \$44,500 to North Dakota State University, 1998-1999.[■] Project aims to develop cost effective sensing instrumentation and architectures for monitoring performance of advanced products and production processes.
- 9) *Intelligent On-line Reliability Monitoring Systems*. P.I. (100% share) for a project funded by NSF's Experimental Program for Stimulation of Competitive Research (EPSCoR) for \$20,000 to North Dakota State University, 1996-1998.[■] Project aims to develop generic yet efficient on-line reliability monitoring algorithms for critical assets.
- 10) *Acquisition of Networked Imaging Cluster for Characterization, Analysis, and Visualization of Materials, Processes, and Engineered Structures*. Research investigator (% share unknown) for a project funded by NSF: Academic Research Infrastructure (ARI) Program for \$288,640 to North Dakota State University, 1995-1998.[■] Funding provided to improve academic research infrastructure.

Federal Grants – Other (U.S. Army, U.S. DoT, VA)

- 1) *Near Real-Time Decision Support System (NRT-DSS) Services*. Continuation Grant. Co-P.I. (25% share) for a grant funded by Veterans Administration for \$159,500, 2016-2017 (P.I. Dr. Murat).[■]
- 2) *Community-Aware Charging Station Network Design for Electrified Vehicles in Urban Areas: Reducing Congestion, Emissions, Improving Accessibility, and Promoting Walking, Bicycling, and use of Public Transportation*. P.I. (50% share) for a grant funded by U.S. DoT through the TRCLC UTC at Central Michigan University for \$129,975 (\$79,956 external), 2015-2016.
- 3) *Near Real-Time Decision Support System (NRT-DSS)*. Co-P.I. (25% share) for a grant funded by Veterans Administration for \$156,250, 2015 (P.I. Dr. Murat).[■]
- 4) *Improving Emergency Department Patient Flow: Through Increased Accuracy and Visibility of Bed Supply and Demand at VHA*. Co-P.I. (25% share) for a continuation project funded by the Veterans Administration for \$25,000, Fall 2014 (P.I. Dr. Dalkiran).[■] Project aims to improve streamline patient flow through Emergency Departments. Contact: Will Jordan, VE-TAP Program Manager, VERC / VA-CASE, Will.Jordan@va.gov, (317) 988-1887.
- 5) *Supply/Demand Alignment Toolkit: Comprehensive Performance Monitoring and Management*. P.I. for a continuation project funded by the Veterans Administration for \$47,500, Fall 2014.[■] Project aims to improve access for patients to primary care clinics. Contact: Will Jordan, VE-TAP Program Manager, VERC / VA-CASE, Will.Jordan@va.gov, (317) 988-1887.
- 6) *Improving Emergency Department Patient Flow: Through Increased Accuracy and Visibility of Bed Supply and Demand at VHA*. Co-P.I. (25% share) for a project funded by the Veterans Administration for \$100,000, 2013-2014 (P.I. Dr. Dalkiran).[■] Project aims to improve streamline patient flow through Emergency Departments. Contact: Will Jordan, VE-TAP Program Manager, VERC / VA-CASE, Will.Jordan@va.gov, (317) 988-1887.
- 7) *Supply/Demand Alignment Toolkit: Comprehensive Performance Monitoring and Management*. P.I. for a project funded by the Veterans Administration for \$190,000, 2013-

2014.).[■] Project aims to improve access for patients to primary care clinics. Contact: Will Jordan, VE-TAP Program Manager, VERC / VA-CASE, Will.Jordan@va.gov, (317) 988-1887.
- 8) *Near Real-Time Decision Support Systems for Reusable Medical Equipment – Phase III.* Co-P.I. (50% share) for a continuation grant funded by Veterans Administration for \$100,000, 2013-2014 (P.I. Dr. Murat).[■]
- 9) *Near Real-Time Decision Support Systems for Reusable Medical Equipment – Phase II.* Co-P.I. (40% share) for a continuation grant funded by Veterans Administration for \$135,000, 2012-2013 (P.I. Dr. Murat).[■] Project aims to improve the availability, utilization, and quality of sterilization for RME within each VHA medical center through near real-time (NRT) forecasting and optimal resource allocation decision support system (DSS) tools developed for primary (OR, SPS, Radiology, Laboratory, ER, Key Clinics) and secondary (ICU/PACU, Logistics, and Inpatient Wards) processes. It also aims to reduce delays/cancellations and improve quality of care provided by better integration of NRT DSS tools with next generation information technologies such as RTLS, SQWM, and IVN. Contact: Will Jordan, VE-TAP Program Manager, VERC / VA-CASE, Will.Jordan@va.gov, (317) 988-1887.
- 10) *Near Real-Time Decision Support Systems for Reusable Medical Equipment.* Co-P.I. (50% share) for a project funded by Veterans Administration for \$175,000, 2011-2012 (P.I. Dr. Murat).[■] Project aims to improve the availability, utilization, and quality of sterilization for RME within each VHA medical center through near real-time (NRT) forecasting and optimal resource allocation decision support system (DSS) tools developed for primary (OR, SPS, Radiology, Laboratory, ER, Key Clinics) and secondary (ICU/PACU, Logistics, and Inpatient Wards) processes. It also aims to reduce delays/cancellations and improve quality of care provided by better integration of NRT DSS tools with next generation information technologies such as RTLS, SQWM, and IVN. Contact: Will Jordan, VE-TAP Program Manager, VERC / VA-CASE, Will.Jordan@va.gov, (317) 988-1887.
- 11) *Novelty Detection Framework for Autonomous Monitoring & Diagnostics of Ground Vehicle Sub-Systems: Preliminary Investigation.* P.I. (100% share) for a project funded by TARDEC (Department of Defense) through ARC for \$33,600, 2010-2011.[■] Project aims to develop unsupervised yet robust monitoring and diagnostic algorithms that rely on “novelty detection” methods for monitoring the health of ground vehicles. Contact: Andrea Simon, University Partnerships Team, TARDEC, Department of Defense, (586) 282-4932.
- 12) *Operational Management Optimization and Supporting Tools In Supply, Processing and Distribution (SPD) Service.* Co-P.I. (50% share) for a project funded by VA for \$160,000, 2010-2011 (P.I. Dr. Murat; Funding through multiple IPAs: Acct# 355047 for \$80,935; Another IPA to Student Assistant Shyamprasad Velumani).[■] Project aims to improve the efficiency of the SPD through staff and equipment capacity planning and short-term (tactical) operational management of SPD work flow and resources. In addition, it aims to increase RME availability and improve sterilization quality by reducing safety incidents through more effective SPD processes, utilization, and load balancing. Contact: Susan (Qian) Yu, Program Analyst, Detroit VAMC, (313) 576-4558.
- 13) *Enhancing JIT Freight Logistics Impacted by Transportation System Projects under ITS.* P.I. (50% share) for a project funded by U.S. DoT through MI-OH UTC for \$40,000, 2010-2011 (Continuation Grant).[■] Project aims to develop an analysis methodology to support effective planning of JIT freight logistics in transportation networks impacted by system improvement projects. Contact: Patricia A. Martinico, (313) 993-1510.
- 14) *Evaluation of Ohio-Michigan Regional Airports for Air Cargo Transportation: Freight Forwarders Perspective.* Co-P.I. (50% share) for a project funded by U.S. DoT through OH-MI UTC for \$29,838, 2010- 2011 (P.I. Dr. Murat) (Continuation Grant).[■] Project aims to document the decision making processes of air freight forwarders and develop an alternative access airport and flight selection decision support tool. Contact: Christine Lonsway, (419) 530-2391.
- 15) *System Redesign Improvement Capability Grant.* Co-P.I. for a project funded by VA to improve system redesign capability at Detroit VA Medical Center for \$1,350,000, 2010-2012 (My Share: \$103,933; Funded through four IPAs – Acct#: 332278, 332268, 332199, and 332192; P.I. VA Staff).[■] Project aims to improve system redesign improvement breadth by training managers and employees and deploying organization wide system redesign /improvement initiatives;

Improve system redesign improvement depth by applying visual management, human factors, supply chain management, simulation and other effective tools; Further improve performances and system redesign improvement capabilities by conducting 16 high impact projects in administrative, inpatient, outpatient areas. Build hierarchical active performance dashboards to enable real-time performance monitoring and continuous improvement. Contact: Susan (Qian) Yu, Program Analyst, Detroit VAMC, (313) 576-4558.

- 16) *Call Center Configuration Analysis & Selection Model*. P.I. (27% share) for a project funded by VA: VISN11 Healthcare Network for \$50,000, 2010 (My Share: \$13,650; Funding through IPA: Acct# 332248).[■] Project aims to develop a Call Center Configuration Analysis & Selection Model for VISN11 Pharmacy Call Centers and provide input to VA decision makers regarding optimal staffing levels required to meet target service goals under different operational and consolidation scenarios. Contact: Pamela Pau, VISN11 VERC Business Manager, (313) 576-1181.
- 17) *Enabling Congestion Avoidance and Reduction in the Michigan-Ohio Transportation Network to Improve Supply Chain Efficiency: Freight ATIS*. P.I. (50% share) for a project funded by U.S. DoT and M-DOT through MI-OH UTC for \$47,000, 2009-2010 (Continuation Grant).[■] Project aims to develop stochastic dynamic routing algorithms that exploit real-time information from Intelligent Transportation Systems (ITS) to promote congestion avoidance for trucks delivering time-sensitive cargo shipments. Contact: Patricia A. Martinico, (313) 993-1510.
- 18) *Value of ITS Information for Congestion Avoidance in Intermodal Transportation Systems*. Co-P.I. (50% share) for a project funded by U.S. DoT through OH-MI UTC for \$50,000, 2009- 2010 (P.I. Dr. Murat) (Continuation Grant).[■] Project aims to develop stochastic dynamic routing algorithms that exploit real-time information from Intelligent Transportation Systems (ITS) to improve delivery performance in inter-modal transportation networks (in particular, air-road networks). Contact: Christine Lonsway, (419) 530-2391.
- 19) *Detroit VA Operations Improvement Grant*. Co-P.I. (% share unknown) for a project funded by VA to improve operations at Detroit VA Medical Center, 2009-2011 (My Share: \$22,743; Funding through IPA: Acct# 332186).[■] The project aims to improve Detroit VA Medical Center operations. My involvement is in the areas of Logistics/ Inventory Management and Management of Reusable Medical Equipment Operations. Contact: Susan (Qian) Yu, Program Analyst, Detroit VAMC, (313) 576-4558.
- 20) *Enabling Congestion Avoidance and Reduction in the Michigan-Ohio Transportation Network to Improve Supply Chain Efficiency: Freight ATIS*. P.I. (50% share) for a project funded by U.S. DoT and M-DOT through MI-OH UTC for \$120,545, 2008-2009 (Continuation Grant).[■] Project aims to develop stochastic dynamic routing algorithms that exploit real-time information from Intelligent Transportation Systems (ITS) to promote congestion avoidance for trucks delivering time-sensitive cargo shipments. Contact: Patricia A. Martinico, (313) 993-1510.
- 21) *Value of ITS Information for Congestion Avoidance in Intermodal Transportation Systems*. Co-P.I. (50% share) for a project funded by U.S. DoT through OH-MI UTC for \$102,041, 2008- 2009 (P.I. Dr. Murat) (Continuation Grant).[■] Project aims to develop stochastic dynamic routing algorithms that exploit real-time information from Intelligent Transportation Systems (ITS) to improve delivery performance in inter-modal transportation networks (in particular, air-road networks). Contact: Christine Lonsway, (419) 530-2391.
- 22) *Enabling Congestion Avoidance and Reduction in the Michigan-Ohio Transportation Network to Improve Supply Chain Efficiency: Freight ATIS*. P.I. (50% share) for a project funded by U.S. DoT and M-DOT through MI-OH UTC for \$123,864, 2008 (Continuation Grant).[■] Project aims to develop stochastic dynamic routing algorithms that exploit real-time information from Intelligent Transportation Systems (ITS) to promote congestion avoidance for trucks delivering time-sensitive cargo shipments. Contact: Patricia A. Martinico, (313) 993-1510.
- 23) *Value of ITS Information for Congestion Avoidance in Intermodal Transportation Systems*. Co-P.I. (50% share) for a project funded by U.S. DoT through OH-MI UTC for \$55,000, 2007- 2008 (P.I. Dr. Murat).[■] Project aims to develop stochastic dynamic routing algorithms that exploit real-time information from Intelligent Transportation Systems (ITS) to improve delivery performance

in inter-modal transportation networks (in particular, air-road networks). Contact: Christine Lonsway, (419) 530-2391.

- 24) *Enabling Congestion Avoidance and Reduction in the Michigan-Ohio Transportation Network to Improve Supply Chain Efficiency: Freight ATIS*. P.I. (50% share) for a project funded by U.S. DoT and M-DOT through MI-OH UTC for \$104,735, 2007. [□] Project aims to develop stochastic dynamic routing algorithms that exploit real-time information from Intelligent Transportation Systems (ITS) to promote congestion avoidance for trucks delivering time-sensitive cargo shipments. Contact: Patricia A. Martinico, (313) 993-1510.

State Grants

- 1) *Intelligent Process Quality Controllers for Advanced Manufacturing Systems*. Research Investigator and Contractor (%share unknown) in a project funded by the State of Texas: Advanced Research Program and Advanced Technology Program (ARP/ATP) for \$81,000 to Texas Tech University and North Dakota State University, 1993-1995 (My Share: \$16,423). Project aims to develop methods for on-line parameter design that exploit information from sensors indicative of noise and uncontrollable factors/variables for promoting quality and yield.

Industry Research Grants

- 1) *Dealer Performance Analytics: Investigating the Learning Loop*. P.I. for a continuation project funded by Urban Science for \$54,000, 2017. Urban Science desires to use the large amount of data (“big data”) available at the dealership and potentially other levels to investigate its learning loop. Project investigates historical dealership data, changes in that data, the impact of changes in operations to build recommendation models to improve performance.
- 2) *Automation of Prescriptive Analytics for the Retail Industry using SPARK*. P.I. for a continuation project funded by Loven Systems \$40,000, 2017. Loven System seeks the development of novel and scalable machine learning algorithms for retail recommendation systems using the Hadoop SPARK environment.
- 3) *Dealer Performance Analytics: Investigating the Learning Loop*. P.I. for a continuation project funded by Urban Science for \$54,000, 2016. Urban Science desires to use the large amount of data (“big data”) available at the dealership and potentially other levels to investigate its learning loop. Project investigates historical dealership data, changes in that data, the impact of changes in operations to build recommendation models to improve performance.
- 4) *Automation of Prescriptive Analytics for the Retail Industry using SPARK*. P.I. for a project funded by Loven Systems \$40,000, 2016. Loven System seeks the development of novel and scalable machine learning algorithms for retail recommendation systems using the Hadoop SPARK environment.
- 5) *Design of Real-time Recommendation Systems for Chained Stores using SPARK*. P.I. for a project funded by Loven Systems \$40,000, 2015. Loven System seeks the development of novel and scalable machine learning algorithms for retail recommendation systems using the Hadoop SPARK environment.
- 6) *Dealer Performance Analytics: Investigating the Learning Loop*. P.I. for a continuation project funded by Urban Science for \$54,000, 2015. Urban Science desires to use the large amount of data (“big data”) available at the dealership and potentially other levels to investigate its learning loop. Project investigates historical dealership data, changes in that data, the impact of changes in operations to build recommendation models to improve performance.
- 7) *Product Assortment Optimization Models*. P.I. for a project funded by Ford Motor Company for \$55,000, 2015. Ford is seeking the development of strategic product definition and assortment optimization models for future vehicle program targeting the U.S. The models seek to improve overall program profitability by balancing marketing interests with engineering, manufacturing, purchasing, and supply chain considerations along with sustainability performance (carbon footprint and emissions).
- 8) *Dealer Performance Analytics: Investigating the Learning Loop*. P.I. for a project funded by Urban Science for \$54,000, 2014. Urban Science desires to use the large amount of data (“big data”) available at the dealership and potentially other levels to investigate its learning loop. Project investigates historical dealership data, changes in that data, the impact of changes in operations to build recommendation models to improve performance.

- 9) *ACSOM Enhancements for Abrams Block-Modernization Program*. Co-P.I. (50% share) for a project funded by General Dynamics Land Systems for \$30,000, 2012 (P.I.: Dr. Murat)
- 10) *Abrams AED Whole System Design-for-Reliability (DFR)*. Co-P.I. (50% share) for a project funded by General Dynamics Land Systems for \$82,400, 2010 (P.I.: Dr. Murat) (Continuation Grant). Project aims to improve the system design for the Abrams AED for reliability by developing a dedicated reliability data extraction, storage and transformation process using the available field and test reliability data. The output of this project will support the RAM ACSOM system optimization tool in identifying optimal Abrams AED designs. Contact: Steve Rapp, (586) 825-4963.
- 11) *Abrams AED Whole System Design-for-Reliability (DFR)*. Co-P.I. (50% share) for a project funded by General Dynamics Land Systems for \$331,400, 2009-2012 (P.I.: Dr. Murat; Acct# 425112, 425111). Project aims to improve the system design for the Abrams AED for reliability by developing a dedicated reliability data extraction, storage and transformation process using the available field and test reliability data. The output of this project will support the RAM ACSOM system optimization tool in identifying optimal Abrams AED designs. Contact: Steve Rapp, (586) 825-4963.
- 12) *Future Combat Systems (FCS) Rooftop Deconfliction: Optimization Analysis*. Co-P.I. (50% share) for a project funded by General Dynamics Land Systems for \$48,000, 2009 (P.I.: Dr. Murat). Project aims to develop an optimization model based on prioritized space claims of sensors and antennas with regard to interference patterns and line of sight requirements. Contact: Darrell Williams, (586) 825-5715.
- 13) *Reliability, Availability and Maintainability (RAM) Injection into Advanced Collaborative System Optimization Modeler (ACSOM)*. Co-P.I. (50% share) for a project funded by General Dynamics Land Systems for \$91,400, 2008 (P.I.: Dr. Murat). Project aims to enhance reliability and maintainability modeling and assessment functionality within ACSOM to facilitate objective evaluation of products and configurations during the earliest stages of product development. Contact: Steve Rapp, (586) 825-4963.
- 14) *Algorithms for Enhancing Fuel Economy in Hybrid Electric Vehicles*, P.I. (100% share) for a project funded by Ford Motor Company, \$108,146, 2007-2008 (Acct# 446984, 425016). Project aims to develop algorithms for automated on-line assessment of driver's driving style and vehicle environment to better control engine performance for promoting fuel economy. Contact: Dimitar Filev, (313) 594-1775.
- 15) *Autonomous Vibration Diagnostics and Reliability Monitoring*. P.I. (100% share) for a project funded by AMTD of Ford Motor Company for \$52,000, 2006. Project aims to develop autonomous diagnostics and prognostics algorithms for monitoring a wide variety of industrial assets through rapidly configurable and adaptive software agents. Contact: Dimitar Filev, (313) 594-1775.
- 16) *Models for Identification and Management of Bottlenecks in Production Facilities*. P.I. (75% share) for a project funded by AMTD of Ford Motor Company for \$52,000, 2006. Project aims to develop algorithms and methods for identification, anticipation, and management of bottleneck stations in production facilities by mining data from Factory Information Systems (FIS) for throughput management. Contact: Dimitar Filev, (313) 594-1775.
- 17) *Intelligent Resistance Welding*. P.I. (100% share) for a project funded by Advanced Manufacturing Technology Development (AMTD) group of Ford Motor Company for \$45,000, 2004-2005 (Acct# 446878, 446866). Project aims to develop efficient monitoring and control algorithms based on neural networks and fuzzy logic for resistance welding stations to promote consistency and quality in weld nuggets. Contact: Dimitar Filev, (313) 594-1775.
- 18) *Diagnostic and Prognostic Algorithms for Condition-Based-Maintenance*. P.I. (100% share) for a project funded by Advanced Manufacturing Technology Development (AMTD) group of Ford Motor Company for \$70,000, 2003-2004 (Acct# 446770, 446696). Project aims to develop autonomous diagnostics and prognostics algorithms for monitoring a wide variety of industrial assets through rapidly configurable and adaptive software agents. Contact: Dimitar Filev, (313) 594-1775.

- 19) *Achieving World Class Quality Assurance and Control at Tecton Products*. P.I. (100% share) for a project funded by Tecton Products, Fargo, North Dakota for \$19,989 to North Dakota State University, 1999. Project aims to develop and implement an appropriate corporate quality system for managing throughput, quality, and reliability of Tecton's pultrusion composite products.

Industry Education Grants

- 1) *Ford EMMP Leadership Research Projects*. Co-P.I. (7.5% share) for projects funded by Ford Motor Company for \$823,444, 2011.
- 2) *Ford EMMP Leadership Research Projects*. Co-P.I. (7.5% share) for projects funded by Ford Motor Company for \$645,011, 2010.
- 3) *Ford EMMP Leadership Research Projects*. Co-P.I. (15% share) for projects funded by Ford Motor Company for \$935,789, 2009.
- 4) *Ford EMMP Leadership Research Project*. Co-P.I. (15% share) for a project funded by Ford Motor Company for \$219,310, 2008.
- 5) *Ford EMMP Program*. Co-P.I. (10% share) for a project funded by Ford Motor Company for \$482,547, 2008.
- 6) *Dana Corp. EMMP Program*. Co- P.I. (10% share) for a project funded by Dana Corporation for \$20,266, 2008.
- 7) *Continental Automotive EMMP Program*. Co- P.I. (10% share) for a project funded by Continental Automotive for \$20,266, 2008.
- 8) *Ford EMMP Leadership Research Project*. Co-P.I. (15% share) for a project funded by Ford Motor Company for \$487,512, 2007.
- 9) *Visteon EMMP Leadership Research Project*. Co- P.I. (15% share) for a project funded by Visteon Corporation for \$206,500, 2007.
- 10) *Ford EMMP Program*. Co-P.I. (10% share) for a project funded by Ford Motor Company for \$444,527, 2007.
- 11) *Visteon EMMP Program*. Co- P.I. (10% share) for a project funded by Visteon Corporation for \$143,449, 2007.
- 12) *Ford EMMP Leadership Research Project*. Co-P.I. (15% share) for a project funded by Ford Motor Company for \$394,256, 2006.
- 13) *Visteon EMMP Leadership Research Project*. Co- P.I. (15% share) for a project funded by Visteon Corporation for \$321,776, 2006.
- 14) *Ford EMMP Program*. Co-P.I. (10% share) for a project funded by Ford Motor Company for \$547,100, 2006.
- 15) *Visteon EMMP Program*. Co- P.I. (10% share) for a project funded by Visteon Corporation for \$414,830, 2006.
- 16) *Ford EMMP Leadership Research Project*. Co-P.I. (20% share) for a project funded by Ford Motor Company for \$478,233, 2005.
- 17) *Visteon EMMP Leadership Research Project*. Co- P.I. (20% share) for a project funded by Visteon Corporation for \$381,472, 2005.

Wayne State University Grants

- 1) *Student Success & Retention Project: Big Data Tools & Technologies*. P.I. for a project funded by OVPR for \$50,000, 2014-2015.
- 2) *Student Success & Retention Project: Big Data Tools & Technologies*. Co-P.I. for a project funded by OVPR for \$50,000, 2013-2014.

C. Fellowships/Grants/Special Awards

Summer Faculty Research Fellowship, DaimlerChrysler Corporation, Summers of 2001-2007.
Summer Faculty Research Fellowship, Chrysler Corporation, Summer 2008.

E. Book Reviews Published

1. Reviews for Publisher

Major reviewer for book manuscript entitled *Manufacturing Processes: Integrating Product and Process Design*, by Wysk, Niebel, and Cohen for McGraw-Hill, 1998-1999.

Major reviewer for book manuscript entitled *Manufacturing Engineering*, by Jiri Tlusty for Addison-Wesley, 1997.

F. Papers Presented

1. Keynote Presentations at International Conferences

1. R.B. Chinnam, "Toward Autonomous Diagnostics and Prognostics," *International Congress on Pervasive Computing and Management*, New Delhi, India, December 12-14, 2008.

2. Invited, Sponsored, Contributed and/or Refereed - Internationally or Nationally

1. Lee, S.Y., Chinnam, R.B., and Dalkiran, E., "Proactive Inpatient Bed Reservations for Admissions Predicted from Emergency Department", *2017 POMS Annual Conference*, Seattle, WA, May 5-8, 2017.
2. Azadian, F., Murat, A., Chinnam, R.B., "Pricing under Zoning Policy in Transportation," *DSI 2015 Annual Meeting*, Seattle, WA, USA, November 21-24, 2015.
3. Almohri, H., Chinnam, R.B., and Colosimo, M., "Data Science Approach for Dealership Performance Analysis," *INFORMS 2015 Annual Meeting*, Philadelphia, PA, November 1-4, 2015.
4. Faridimehr, S. and Chinnam, R.B., "Managing Access to Primary Care Clinics," *INFORMS 2015 Annual Meeting*, Philadelphia, PA, November 1-4, 2015.
5. Nejad, M., Chinnam, R.B., Grosu, D., and Mashayekhy, L., "Scheduling and Pricing Services for Online Electric Vehicle Charging," *INFORMS 2015 Annual Meeting*, Philadelphia, PA, November 1-4, 2015.
6. Lee, S.Y., Chinnam, R.B., et al., "Improving Proactive Coordination between Emergency Department and Inpatient Wards using Electronic Medical Records," *MSOM 2015 Conference*, Toronto, ON, Canada, June 29-30, 2015.
7. Faridimehr, S., Tabaie, A., Lee, S.Y., Chinnam, R.B., Murat, A., Dalkiran, E., and Yang, Q., "Supply and Demand Alignment at Primary Care Facilities," *2015 POMS Annual Conference*, Washington DC, May 8-11, 2015.

IV. SERVICE

A. Administrative Appointments at Wayne State

Graduate Program Officer, Industrial & Systems Engineering Department, Fall 2003 – Present.

Founding Director, Global Executive PhD Track – Industrial & Systems Engineering Department, Winter 2007 – Present.

This is the first such engineering program in the United States. This novel program was launched in 2008 and to date has admitted over 25 doctoral students. The GET PhD Track has very little in common with traditional PhD programs. Both the curriculum and its delivery are quite novel. Faculty and experts from around the globe participate in the program. This is one of my most significant achievements. Several universities are now reviewing the program for copying it. See the GET Program Website (<http://ise.wayne.edu/get/index.php>) for more information.

Founding Co-Director, Interdisciplinary M.S. Program in Data Science & Business Analytics, Wayne State University, Fall 2016 – Present.

Approved by the WSU BoG in Fall 2016, this is a novel interdisciplinary degree program that leverages the strengths of Wayne State in statistics, operations research, computing, and business by combining the expertise of the College of Engineering and the Mike Ilitch School of Business. It offers students three specialization tracks in Analytics, Engineering, and Business. See the Program Website (<https://bigdata.wayne.edu/degree>) for more information.

Founding Co-Director, Big Data & Business Analytics Group, 2013 – Present.

Founding Co-Director, Data Science Institute, 2015 – Present.

B. Administrative Appointments at Other Colleges/University

Graduate Program Coordinator, Industrial & Manufacturing Engineering Department, North Dakota State University, Fall 1995 – Winter 2000.

C. Committee Assignments in Last Five Years

1. University Committee Membership

Research IT Advisory Group, 2015 – Present.

Data Coordinating Committee, 2015 – Present.

Strategic Planning Committee, October 2014 – 2015.

Graduate Council Academic Standards Committee, Fall 2015-Present.

Graduate School – PhD Advisory Committee, 2014 – 2015.

Graduate School Awards Committee, 2013.

Executive Committee of the Graduate Council, Fall 2007-Summer 2008.

Graduate Council, Fall 2006-Summer 2008; Fall 2015-Present.

Sustainability@Wayne Seminar Series, Steering Committee Member, 2011-Present.

2. College/Department Committee Chaired

Wayne State University – Fall 2000 to Present

Faculty Search Committee, 2012-2013.

Industrial & Systems Engineering Department's Executive PhD Track Oversight Committee, Winter 2007-Present

Industrial & Systems Engineering Department's M.S. Programs Committee, Summer 2003-Summer 2005

Industrial & Systems Engineering Department's Doctoral and Research Committee, Fall 2003-Present

North Dakota State University - Fall 1998 to Spring 2000

College of Engineering & Architecture's (CEA) Research and Extension Committee, Fall 1995-Spring 1999

CEA Graduate Program Committee, Spring 1998-Spring 2000

3. College/Department Committee Membership

Wayne State University – Fall 2000 to Present

College of Engineering's Research Advisory Committee, Fall 2013 – Present

College of Engineering's Research Advisory Committee, Fall 2007 – Summer 2011

College of Engineering's Recruiting and Retention Committee, Fall 2007 – Present

College of Engineering's Faculty Assembly Executive Committee, Fall 2006-2007

College of Engineering's Academic Operations Committee, Winter 2001- Summer 2004

College of Engineering's Academic Operations Committee, Fall 2013- Present

College of Engineering's Machine Shop Committee, Winter 2001-2004

Industrial & Systems Engineering Department's Promotion and Tenure Committee, Fall 2007 – Present.

Industrial & Systems Engineering Department's M.S. Programs Committee, Fall 2001-Summer 2003; Fall 2005-Present.

Industrial & Systems Engineering Department's PhD Committee, Winter 2002-Summer Present.

Industrial & Systems Engineering Department's EMMP Committee, Fall 2003-Summer 2005; 2011.

Industrial & Systems Engineering Department's Faculty Search Committee, 2011.

Industrial & Systems Engineering Department's Faculty Search Committee, Fall 2004-Winter 2005.

Industrial & Systems Engineering Department's Faculty Search Committee, Fall 2003-Winter 2004.

North Dakota State University - Fall 1998 to Spring 2000

College of Engineering & Architecture's (CEA) Academic Affairs Committee, Spring 1999-Spring 2000

CEA Computer Committee, Fall 1997-Spring 1998

CEA Graduate Program Committee, Spring 1998-Spring 2000

Industrial & Manufacturing Engineering Department's Faculty Search Committee, 1997-Spring 2000

Industrial & Manufacturing Engineering Department's Chair Search Committee, 1995-1999

D. Membership/Offices Held in Public or Private Agencies Related to Discipline

Member, SAE's (Society of Automotive Engineers) Global Supply Chain & Manufacturing Committee, May 2007 – Present

Member, EURO Working Group on Vehicle Routing and Logistics Optimization (VeRoLog), February 2011 – Present

Member, Sustainable Manufacturing Strategic Interest Group (SM SIG), National Center for Manufacturing Sciences (NCMS), August 2011 – Present

Member, Technical Committee on Diagnostics & Prognostics, IEEE Systems, Man, & Cybernetics (IEEE SMC) Society, May 2013 – Present

E. Professional Consultation

1. Consulting to Private Enterprises

Consultant, Tecton Products, Fargo, ND, 1998-2000.

Consultant, Energy Conversion Devices, Rochester Hills, MI, 2003.

Consultant, Sirius Satellite Radio, 2005.

Consultant, MTS Technologies LLC, 2011.

Consultant, General Dynamics Land Systems, 2011-2013.

Consultant, Instant Innovation Session for Steelcase, Faurecia, and Whirlpool, 2014.
Consultant, CapGemini, 2014.
Consultant, Dominos, 2014, 2015.
Consultant, MRF Tyres, 2015, 2016.
Consultant, Magna International, 2016.
Consultant, DataFactZ, 2016.

2. Advisor to Private Enterprises

Chief Analytics Advisor, DataFactZ, April 2015 – Present
Data Science Strategy & Solutions Advisor, Loven Systems, April 2015 – Present
Strategic Advisor & Mentor, Kyyba Xcelerator, June 2017 - Present

F. Journal/Editorial Activity

1. Editorial Board Memberships

Associate Editor, *International Journal of Modelling and Simulation*, Taylor & Francis (ACTA Press), 2000–Present.

http://www.actapress.com/Content_of_Journal.aspx?JournalID=146

North-American Area Editor, *Journal of Remanufacturing*, Springer, 2012–Present.

<http://www.springer.com/engineering/journal/13243>

Associate Editor, *International Journal of Quality, Statistics, and Reliability*, Hindawi, 2009–Present. <http://www.hindawi.com/journals/ijqsr/>

Associate Editor, *Journal of Industrial Engineering*, Hindawi, 2012–Present.

<http://www.hindawi.com/journals/jie/>

Associate Editor, *Statistics, Optimization and Information Computing*, 2013–Present.

<http://www.iapress.org/index.php/soic/>

Editorial Board, *International Journal of Mathematics and Statistics*, 2014–Present.

<http://www.ceser.in/ijms.html>

Guest Editor:

- “Machinery Diagnostics and Prognostics” Special Issue of *Machines*, 2014 (along with Prof. Andrew Ball, University of Huddersfield, UK).

http://www.mdpi.com/journal/machines/special_issues/diagnostics-prognostics

2. Reviewer

Journals (Regular Reviewer)

Computers & Industrial Engineering

Computers and Operations Research

European Journal of Operations Research

IEEE Transactions on Automation Science and Engineering

IEEE Transactions on Fuzzy Systems

IEEE Transactions on Neural Networks

IEEE Transactions on Reliability

IEEE Transactions on Systems, Man and Cybernetics – Part A

IEEE Transactions on Systems, Man and Cybernetics – Part C

IIE Transactions

International Journal of Machine Tools and Manufacture

International Journal of Modeling and Simulation

International Journal of Production Research

International Journal of Smart Engineering System Design

International Journal of Sustainable Engineering

Journal of Cleaner Production

Journal of Machining Science and Technology

OMEGA

Conferences

Proceedings papers submitted annually to *International Joint Conference on Neural Networks*, 2002-2008.

Proceedings papers submitted annually to *Artificial Neural Networks in Engineering Conference*, 1995-2001.

Proceedings papers submitted annually to *International Conference on Neural Networks and Computational Intelligence*, 2003-2005.

Proceedings papers submitted annually to *Industrial Engineering Research Conference*, 1994-2000.

G. Other Professionally Related Service

Conference Chair

Big Data & Business Analytics Symposium, Wayne State University, Detroit, MI, March 23-24, 2017. [Symposium Chair]

Big Data & Business Analytics Symposium, Wayne State University, Detroit, MI, March 23-24, 2016. [Symposium Chair]

Big Data & Business Analytics Symposium, Wayne State University, Detroit, MI, March 10-11, 2015. [Symposium Co-Chair]

Big Data & Business Analytics Symposium, Wayne State University, Detroit, MI, March 26, 2014. [Symposium Co-Chair]

This is the first symposium organized by the Big Data & Business Analytics Group formed in 2014 at Wayne State University and I was instrumental in conceiving, planning, and organizing the symposium.

CAS 2011 – *Complex Adaptive Systems*, Chicago, IL, October 31 - November 2, 2011. [Conference Program Co-Chair]

This is the first international conference on Complex Adaptive Systems and I was instrumental in conceiving, planning, and organizing the conference.

PASI 2013 – *PASI Institute on Manufacturing Innovation through Sustainable Design*, NSF Sponsored Institute, Universidad Del Norte in Barranquilla, Colombia, July 14-27, 2013. [Institute Director]

Conference Planning Committee and/or Technical/Review Committee Member

ICMATS '14 – *1st International Conference on Modern Automotive Technology and Service*, Wuhan, China, October 24-27, 2014. [Organizing Committee]

GreenUp '12 – *2012 Michigan Green Chemistry and Engineering Conference*, Michigan.

CIB 2011 – *6th IASTED International Conference on Computational Intelligence and Bioinformatics*, Pittsburgh, USA, November 7-9, 2011. [International Program Committee]

SAE '10 – *SAE World Congress*, Detroit, MI, April 13-15, 2010.

IVC & ITS '09 – *3rd International Workshop on Intelligent Vehicle Controls & Intelligent Transportation Systems*, Milan, Italy, July 4-5, 2009. [Workshop Program Committee]

SAE '09 – *SAE World Congress*, Detroit, MI, April 20-23, 2009.

ICPCM '08 - *International Congress on Pervasive Computing and Management*, New Delhi, India, Dec 12-14, 2008. [Advisory Board Member]

3rd Biennial Conference on *Complexity and Business Analytics*, University of Michigan-Dearborn, October 10, 2008. [Conf. Planning Committee]

IJCNN '08 – *International Joint Conference on Neural Networks*, Hong Kong, June 1-6, 2008.

SMC-IA '08, *IEEE Workshop on Soft computing in Industrial Applications*, Muroran, Japan, June 25-27, 2008.

SAE '08 – *SAE World Congress*, Detroit, MI, April 14-17, 2008.

SMC-IA '07, *IEEE Workshop on Soft computing in Industrial Applications*, Passau, Germany, August 1-3, 2007.

IJCNN '07 – *International Joint Conference on Neural Networks*, Orlando, Florida, USA, August 12-17, 2007.

- FUZZ IEEE '07 – *International Conference on Fuzzy Systems*, London, England, July 24-26, 2007.
- 2nd Biennial Conference on *Complexity and Business Analytics*, University of Michigan-Dearborn, October 14, 2006. [Conf. Planning Committee]
- SMC-ALS '06, *IEEE Workshop on Adaptive Learning Systems*, Utah State University, Logan, Utah, U.S.A., July 24 to 26, 2006.
- IJCNN '06 – *International Joint Conference on Neural Networks*, Vancouver, BC, Canada, July 16-21, 2006.
- FUZZ IEEE '06 – *International Conference on Fuzzy Systems*, Vancouver, BC, Canada, July 16-21, 2006.
- IJCNN '05 – *International Joint Conference on Neural Networks*, Montreal, Canada, July 31-August 4, 2005.
- The 2nd IASTED *International Conference on Neural Networks and Computational Intelligence* (NCI-2004), Grindelwald, Switzerland, February 23-25, 2004.
- IASTED *International Conference on Neural Networks and Computational Intelligence* (NCI-2003), Cancun, Mexico, May 19-21, 2003.
- International Joint Conference on Neural Networks '03*, Portland, Oregon, July 20-24, 2003.
- International Joint Conference on Neural Networks '02*, Honolulu, Hawaii, May 12-17, 2002.
- Artificial Neural Networks in Engineering Conferences*, St. Louis, Missouri, 1998-Present (Annual Conference).
- 58th *Annual ASEE North Midwest Conference*, North Dakota State University, Fargo, North Dakota, October 3-5, 1996.
- Invited Conference Session Organizer
- Session Organizer, OEM Global Supply Chain, *2010 SAE World Congress*, Detroit, Michigan, April 13-15, 2010.
- Session Organizer, OEM Global Supply Chain, *2009 SAE World Congress*, Detroit, Michigan, April 20-23, 2009.
- Session Organizer, Dynamic Routing and Logistics under Real-Time ITS Information, *INFORMS*, Washington D.C., October 12-15, 2008.
- Session Organizer and Session Chair, OEM Global Supply Chain, *2008 SAE World Congress*, Detroit, Michigan, April 14-17, 2008.
- Session Organizer, Urban Transportation Planning Models: Dynamic Routing with Real-time ITS Information, *INFORMS*, Seattle, November 3-7, 2007.
- Organizer and Chair, Multi-agent Systems in Supply Chain Management, *Industrial Engineering Research Conference*, Nashville, Tennessee, May 19-23, 2007.
- Invited Conference Session Chair
- Session Chair, *19th International Federation of Operational Research Societies (IFORS2011)*, Melbourne, Australia, July 10-15, 2011.
- Session Chair, *ALIO-INFORMS Joint International Meeting*, Buenos Aires, Argentina, June 6-9, 2010.
- Session Co-Chair, OEM Global Supply Chain, *2010 SAE World Congress*, Detroit, Michigan, April 13-15, 2010.
- Session Co-Chair, OEM Global Supply Chain, *2009 SAE World Congress*, Detroit, Michigan, April 20-23, 2009.
- Session Chair, Fault Diagnosis, *International Joint Conference on Neural Networks*, Hong Kong, June 1-6, 2008.
- Session Co-Chair, OEM Global Supply Chain, *2008 SAE World Congress*, Detroit, Michigan, April 14-17, 2008.
- Organizer and Chair, Multi-agent Systems in Supply Chain Management, *Industrial Engineering Research Conference*, Nashville, Tennessee, May 19-23, 2007.

Federal Proposal Review Panels

Panel Member, MI-UH UTC at University of Detroit Mercy, *U.S. Department of Transportation*, Detroit, 2006-2010.

Panel Member, Manufacturing Enterprise Systems Program, *National Science Foundation*, Washington D.C., December 18, 2007.

Panel Member, Manufacturing Enterprise Systems Program, *National Science Foundation*, Washington D.C., November 28 and 29, 2005.

H. Community Service

Parent Volunteer, *First Robotics*, Hart Middle School, Rochester, 2010.
