EDUCATION

Wayne State University, Detroit, MI

Candidate for Doctor of Philosophy in Political Science

Major: Public Policy

Minors: American Politics & Government, Public Administration

Honors: Induction in Pi Alpha Alpha National Scholastic Honor Society

Wayne State University Law School, Detroit, MI

Juris Doctor, August 2015

Honors: Bronze Key recipient

Merit Scholarship

Rogers Mantese & Associates, PC Annual Scholarship in Health Law

State Bar of Michigan Health Care Law Section Award recipient

Eastern Michigan University, Ypsilanti, MI

Master of Science in Clinical Behavioral Psychology, May 2007

University of Maryland University College, Adelphi, MI

Bachelor of Arts in Psychology and English (magna cum laude), May 2001

PROFESSIONAL MEMBERSHIPS

- American Bar Association
- American Political Science Association
- Association for Behavior Analysis International
- Behavior Analysis Association of Michigan
- International Public Policy Association
- Midwest Political Science Association
- Motivational Interviewing Network of Trainers
- National Capital-Area Political Science Association

RESEARCH AND HEALTH PSYCHOLOGY EXPERIENCE

Michigan State University, College of Human Medicine, Division of Public Health,
Department of Obstetrics, Gynecology, & Reproductive Biology, Flint, MI

Project Coordinator, October 2019 – May 2022 (contracted half-time through WSU)

Project Coordinator, August 2022 – present (full-time employment)

Project coordinator for a multi-site NIH-funded randomized controlled trial of an electronically delivered screening, brief intervention, and referral to treatment (e-SBIRT) protocol for pregnant women at risk of alcohol use during pregnancy. Functions as a liaison and coordinates with other institutions, state public health agencies, external lab, external consultants, and vendors. Works with video production companies to produce study intervention videos. Develops recruitment and intervention materials, online and community advertising campaigns, standard operating procedures (SOPs). Supervises electronic gift card distribution to participants and delivery of the intervention via the Computerized Intervention Authoring System (CIAS) and text messages. Responsible for local data management and data integrity, updates to ClinicalTrials.gov and National Data Archives, Ripple project management, NIH progress reporting, and IRB coordination (institutional IRB, NIH eProtocol, and state public health agency IRBs). Monitors compliance with project and funder requirements, coordinates with and sends reports to the Data Safety and Monitoring Board. Identifies and interprets relevant laws, policies, and regulations. Reviews data use agreements and vendor contracts for service and study measures. Hires, trains, and supervises junior research assistants. Fulfills additional responsibilities as assigned.

Wayne State University School of Medicine, Department of Family Medicine and Public Health Sciences, Detroit, MI

Clinical Supervisor, Project Coordinator, Project Consultant, April 2007 – May 2022

Major projects (worked directly with primary investigators and project consultants):

(2015 – 2022) Project coordinator and motivational interviewing trainer for an NIH-funded implementation intervention effectiveness trial as part of the Adolescent Trials Network for HIV/AIDS Interventions and implementation science research. Organized pilot and primary intervention sites. Coordinated with medical directors at 12 multidisciplinary adolescent HIV prevention and care settings nationwide to deliver group and individual staff training in motivational interviewing. Developed training and assessment materials (independently and in collaboration with senior researchers). Developed standard patient profiles and training protocols. Collaborated with on- and off-site senior research staff on multiple coordinated implementation science studies. Trained and supervised junior research assistants. Assisted with manuscript and policy brief writing. Participated in policy and advocacy working groups. Assisted with IRB documents for human subjects research during project development.

(2018 – 2020) Project consultation and management assistance for a multisite NIH-funded research study to determine the impact of social stressors on preterm birth risk for black women. Developed standard operating procedures; assisted with protocol training, adherence oversight, and regulatory compliance; managed qualitative interview transcription process;

assisted with staff professional development, data management, internal review board (IRB) documents, and other project management tasks as required. Participated in weekly team meetings. Assisted with IRB responsibilities, including amendments, coordinating site applications, data use agreements, PI change forms, and study continuations.

(2014 – 2016) Training and development staff member for the “REACH for Control” project, an evidence-based intervention for adolescents with chronic poor metabolic control of Type 1 Diabetes Mellitus or asthma. Developed treatment manuals and comprehensive staff training materials to be used by community health workers, on-site supervisors, and off-site consultants. Conducted qualitative research interviews with health care providers and key stakeholders. Provided training for pilot study staff in Detroit.

(2014 – 2015) Behavioral health clinical supervisor for grant-funded weight management pilot study for preschool-aged children and their primary caregivers in Metro Detroit. Supervised two community health workers and ensured high treatment fidelity during the implementation of a home-based treatment protocol and control group intervention using evidence-based cognitive-behavioral and behavior-analytic interventions. Assisted with revisions to the treatment protocol and treatment manuals. Developed and delivered initial training. Conducted ongoing fidelity monitoring and training.

(2010 – 2015) Behavioral health clinical supervisor on an NIH-funded adolescent obesity treatment study in Metro Detroit. Supervised five community health workers and ensured high treatment fidelity during the implementation of an intensive family-based treatment protocol for adolescent weight loss using evidence-based cognitive-behavioral and behavior-analytic interventions (home- and office-based). Developed staff selection protocols using structured behavioral interviewing, developed and conducted initial and ongoing training protocols for staff, wrote clinical standard operating procedures, and maintained accountability of clinical staff and clinical resources. Collaborated with senior researchers to develop treatment protocols, treatment manuals, and staff training materials. Led multidisciplinary team meetings. Participated in research meetings with senior researchers to determine treatment standards and revisions to research protocols. Assisted project coordinator with staff management and project management activities.

(2007 – 2010) Behavioral health therapist for NIH-funded treatment study in metro Detroit. Used Multisystemic Therapy (MST) to provide intensive home- and community-based family therapy for adolescents with diabetes or asthma with chronically poor metabolic control. Focused on improving medical adherence, weight management, and parenting skills using empirically supported cognitive-behavioral and behavior analytic interventions. Coordinated care and engaged in patient advocacy efforts with school personnel, medical staff, and other members of the community while developing and maintaining collaborative relationships. Provided self-advocacy guidance to families and assisted them with navigating education, social service, and medical systems. Participated in multidisciplinary team meetings at schools, with medical providers, and with project research personnel. Co-authored a weight management treatment manual.

Behavior Change Consultants, Clawson, MI

Motivational Interviewing Trainer, June 2012 – July 2017 (project-based)

Training staff member. Provides behavior change communication workshops and individual coaching to healthcare providers and community organizations targeting multiple health behaviors including chronic disease prevention and treatment, adherence to medical recommendations, lifestyle change, and substance use. Facilitated approximately 1-2 training workshops per year.

Eastern Michigan University Psychology Clinic, Ypsilanti, MI

Assistant Co-Director, August 2006 – April 2007

Responsible for managing clinic in director's absence, functioning as on-call supervisor to answer clinician questions and provide guidance as necessary, opening and closing clinic as needed, maintaining security of sensitive materials, conducting inventory of clinic resources regularly, correcting clinician deficiencies and/or bringing them to the director's attention as appropriate, and performing general office management duties.

Eastern Michigan University, Department of Psychology, Ypsilanti, MI

Graduate Assistant, September 2002 – August 2006

Full-time student in clinical behavioral psychology Ph.D. program. Responsibilities included undergraduate teaching, research assistance, and clinical work. Research experiences included performing comprehensive literature searches, data collection, copy-editing, database management, drafting manuscripts, and preparing conference presentations. Clinical experiences included intellectual and diagnostic assessments and outpatient therapy with children, adolescents, and adults.

Medical University of Ohio, Kobacker Center, Toledo, OH

Clinical Externship, October 2004 – June 2005

Conducted developmental, intellectual, and diagnostic assessments for children and adolescents. Provided outpatient therapy to children, adolescents, and families in a community mental health setting.

Eisenhower Center, Ann Arbor, MI

Clinical Externship, May 2003 – April 2004

Conducted post-acute neurorehabilitation with adults at a residential care facility. Developed and implemented individual treatment plans based on functional analyses to correct socially inappropriate behavior and develop independent living skills. Provided community reintegration training and co-facilitated group treatment to improve communication and social skills. Participated in multidisciplinary team meetings.

Johns Hopkins University, Baltimore, MD

Research Assistant, May 2001 – May 2002

Conducted direct observation of school-aged participant and control subjects' behavior in classroom settings. Achieved interrater reliability of over 0.95 using a complex behavior coding system. Required knowledge of each classroom's rules and expectations for student behavior relevant to various classroom activities to code target behaviors accurately. Research was conducted in multiple urban, suburban, and rural elementary school classrooms.

LEGAL EXPERIENCE

Veterans Rights Law Group, PLLC; Grosse Pointe, MI

Attorney, April 2019 – present

Contract attorney carrying a small caseload of clients appealing decisions from the Department of Veterans Affairs, Board of Veterans Appeals to the U.S. Court of Appeals for Veterans Claims. Reviews Board decisions and records of several hundred to several thousand pages in length, including service, medical, employment, education, and legal records. Organizes relevant information discovered in records and develops legal arguments. Conducts legal research and interprets complex laws, policies, and procedures related to case records and Board decisions. Prepares and files briefing conference memos summarizing the issues, appellant arguments, and supporting evidence; represents clients in telephonic briefing conferences with attorneys representing the Secretary of Veterans Affairs; prepares and files appellant briefs, replies, and other legal documents as required by the appeal process. Requires knowledge of applicable law and legal research skills, strict adherence to formal rules and procedures, attention to detail, and ability to work well under pressure. Associated skills include the ability to understand complex medical and mental health conditions often spanning decades of changing diagnostic criteria and assessment standards, and the ability to quickly learn about unfamiliar medical/mental health conditions and standards of practice to detect Board decision errors.

Wayne State University Law School; Detroit, MI

Clinical Fellowship, May 2015 – August 2015

Selected as a summer fellowship recipient for the Legal Advocacy for People with Cancer Clinic (LAPC), a medical-legal partnership program with Karmanos Cancer Institute (KCI) under the supervision of Kathleen Smolinski, M.S.W., J.D. Assisted low-income clients with legal needs in the areas of housing, life planning, and public benefits. Conducted legal research, gathered supporting records, evaluated acceptability of documents, interviewed clients, and provided legal advice under the guidance of the supervising attorney. Successfully represented a client on a Supplemental Security Income appeal at an administrative law hearing within 30 days of starting the fellowship. Identified a case of possible insurance fraud valued at \$90,000. Consulted with supervising attorney and clinic director, determined appropriate actions, provided advice to client on how to proceed, and documented actions. Developed end-of-life policy recommendations for KCI and reviewed and updated training documents for the LAPC. Participated in interdisciplinary meetings. Maintained correspondence and activity records.

Wayne State University Law School; Detroit, MI

Research Assistant, May 2012 – May 2014

Assistant to Lance Gable, J.D., M.P.H. Conducted scholarly research and copy-editing for several law review articles and a book chapter. Topic areas included public health law, public health law research, systems of governance, global mental health rights, and emergency preparedness. Provided research support for an amicus brief submitted by a group of public health law professors and public policy organizations in support of the New York sugary

beverages ban (*New York Statewide Coalition v. New York City Department of Health and Mental Hygiene*). Participated in emergency preparedness planning/training meetings.

ACADEMIC RESEARCH EXPERIENCE

Wayne State University, Department of Political Science, Detroit, MI
Textual Analysis of State Laws, 2020 – 2021

Worked with Dr. Jeffery Grynawski to develop a Python program to analyze state law content for a policy diffusion study comparing state autism laws enacted before and after a model act was introduced. Assessed influence of advocacy groups as evidenced by content of scholarly literature, legislative history, committee hearings, and fiscal analysis reports. Coordinated with legislative librarians and archivists to obtain materials not available through online sources. Collaborated on preparation of manuscript and conference presentation materials.

Eastern Michigan University, Department of Psychology, Ypsilanti, MI
Post-Traumatic Stress Disorder, 2006 – 2007

Worked with Dr. Ellen Koch as a therapist on a comparative study of prolonged exposure and dosed exposure as treatments for PTSD. Treatment sessions were conducted in an outpatient mental health clinic.

Eastern Michigan University, Department of Psychology, Ypsilanti, MI
Adolescent Idiopathic Scoliosis, 2004 – 2007

Assisted Drs. Flora Hoodin and Michelle Byrd during early development of a longitudinal scoliosis research project in collaboration with an orthopedist, Dr. Michael Mendelow. Contributions included a comprehensive literature review, attending research development meetings, informal observations of patient-medical staff interactions and treatment decision-making processes, data collection at patient medical appointments and focus groups, and development of a thesis project titled, “Psychological Effects of Adolescent Idiopathic Scoliosis Diagnosis on Patients and Caregivers: Distress and Expectations.” Research was primarily conducted at a large, urban children’s hospital and a suburban medical facility.

Eastern Michigan University, Department of Psychology, Ypsilanti, MI
Causal Attributions, 2003 – 2004

Assisted Dr. Michelle Byrd with onsite data collection. Conducted direct observation of interactions between adolescent patients and direct care staff related to patient behavior meeting criteria for disciplinary action. Required knowledge of behavior coding system developed for this project, facility rules, and expectations relevant to various activities and locations on the facility grounds. Research was conducted at a large residential care facility for adolescent girls.

TEACHING EXPERIENCE

Wayne State University, Department of Family Medicine & Public Health Sciences, Detroit MI
Adjunct Faculty, Public Health Policy (graduate), 2022 – present
Adjunct Faculty, Health Care Organization & Administration (graduate), 2020 – present
Adjunct Faculty, Population Health Leadership (graduate), 2022 – present
Teaching Assistant, Health Care Organization & Administration (graduate), 2019 – 2020

University of Phoenix Online

Instructor, Life Span Development (undergraduate), 2009 – 2010

Eastern Michigan University, Department of Psychology, Ypsilanti, MI

Adjunct Faculty, Introductory Psychology (undergraduate), 2006
Adjunct Faculty, Child Psychology (undergraduate), 2005 – 2006
Guest Lecturer, Abnormal Psychology (stress and health, eating disorders; undergraduate), 2006
Guest Lecturer, Self-Analysis and Control (strategies for behavior change; undergraduate), 2004
Supplemental Instruction Program Tutor, Introductory Psychology (undergraduate), 2006

OTHER

Wayne State University Law School

Civil rights trip, Atlanta, GA; Montgomery, AL; Selma, AL; March 2014

Selected to attend a four-day educational trip sponsored by the Wayne State University Law School and Damon J. Keith Center for Civil Rights for ten law students to visit organizations and sites of interest relevant to the 1960s Civil Rights Movement and ongoing civil rights legal work conducted by the Southern Poverty Law Center and the Equal Justice Initiative.

U.S. Army, various locations

Sergeant, October 1991 – September 1997

Served on active duty in the U.S. Army Finance Corps. Participated in ongoing mission readiness and deployment activities. Initially assigned to a service support unit on a large, rapid deployment infantry post. Deployed to Somalia (Operation Restore Hope) and Florida (Joint Task Force Andrew). Later selected to serve with a joint services military intelligence unit. Provided service support to foreign area officers serving in over 110 countries. Held a top-secret clearance with special background investigation and polygraph (TS/SBI). Promoted ahead of peers, awarded for service, and received an honorable discharge.
